Expert Conclusion

The Russian version of the page was translated word for word from English. In the loyalty program the meaning is distorted, and at the bottom of the page there are errors that all visitors can see. We recommend fixing the five major errors first, then making the texts read as natural Russian. Most fixes involve text only; two errors require technical work.

Where the Errors Were Found

Fragments of the homepage. The marker numbers match the numbers in the error list on the next page.

MARKED ON THE FRAGMENTS

- 1 «Мобильная регистрация» (“mobile registration”) instead of check-in via the app
- 2 «Заработать бесплатные ночи» (“earn free nights”): word-for-word translation
- 3 «Сутки» (“24-hour days”) instead of «ночи» (“nights”) in the same block
- 4 «Карта сайта» (“Sitemap”): the first letter is Latin
- 5 A code string is visible to visitors
- 6 Capital letters following the English pattern
- 7 «Различные локации» (“various locations”): word-for-word translation, sounds bureaucratic

List of Errors Found

For each error: where it is located, what the website says now, what the error is, what it should be, and who fixes it. The sample shows some of the errors.

No.	Error type	Where on the page	On the website now	What is wrong	What it should be	Assigned to
● Major						
1	Translation distorts the meaning	Loyalty program block, bottom-right icon	«МОБИЛЬНАЯ РЕГИСТРАЦИЯ» (mobile registration)	A customer may read this as registering on the website. It actually means checking in to the hotel via the app (original: “Mobile check-in”).	«ЗАСЕЛЕНИЕ ЧЕРЕЗ ПРИЛОЖЕНИЕ» (check-in via the app)	Editor
2	Translation distorts the meaning	Loyalty program block, top-left icon	«ЗАРАБОТАТЬ БЕСПЛАТНЫЕ НОЧИ» (earn free nights)	Word-for-word translation of “Earn free nights”. This wording is unnatural in Russian: nights are not “earned”.	«БЕСПЛАТНЫЕ НОЧИ ЗА БАЛЛЫ» (free nights for points)	Editor
3	Poor wording	Loyalty program block, text under the heading	«баллы для бесплатных суток» (points for free 24-hour days)	The same block also says «ночи» (nights). Visitors cannot tell whether a night and a 24-hour day are the same thing.	«баллы для бесплатных ночей» (points for free nights)	Editor
4	Technical errors visible to visitors	Bottom of the page, “Sitemap” link	«Карта сайта» (Sitemap)	The first letter «К» is typed as a Latin letter. The word looks correct, but on-page search cannot find it, and screen readers read it incorrectly.	«Карта сайта» with the Cyrillic letter «К»	Developer
5	Technical errors visible to visitors	Bottom of the page, the very last line	«prod31,0B458DAD-...,N A»	A system code string is visible at the bottom of the page. Visitors do not understand it, and it looks like a malfunction.	The code string is hidden from visitors	Developer
● Minor						
6	Poor wording	“Special offers” block, card 1	«Получите Скидку 50% На Второй Номер» (Get 50% Off The Second Room)	Every word is capitalized, as is common in English. This is not done in Russian.	«Получите скидку 50% на второй номер» (Get 50% off the second room)	Editor
7	Poor wording	“Special offers” block, all cards (repeated 4 times)	«РАЗЛИЧНЫЕ ЛОКАЦИИ» (various locations)	Word-for-word translation of “Various locations”. Sounds bureaucratic, and visitors do not understand what it refers to.	«РАЗНЫЕ НАПРАВЛЕНИЯ» (various destinations)	Editor
