

Task List for the Editor

Audit scope: Russian version of the homepage of an international hotel chain’s website

Audit date: October 5, 2026

Scope of work: 13 text corrections, including 3 major and 10 minor

Audit document set: executive report · task list for the editor · task list for the developer

This task list contains text corrections only: they do not require changes to the website’s code or design. For each error, it shows the location on the page, the current text, the corrected text, and the reason for the correction. After making a correction, mark it in the “Done” column. If a correction cannot be made or you disagree with it, state the reason in the “Comments” column: an EPG Global ONE expert will respond. Error numbers match the executive report.

No.	Where on the page	On the website now	Change to	Reason for the correction	Done	Comments
● Major						
1	Loyalty program block, bottom-right icon	«МОБИЛЬНАЯ РЕГИСТРАЦИЯ» (mobile registration)	«ЗАСЕЛЕНИЕ ЧЕРЕЗ ПРИЛОЖЕНИЕ» (check-in via the app)	Incorrect translation of “Mobile check-in”: reads as registering on the website, not checking in to the hotel.	☐	
2	Loyalty program block, top-left icon	«ЗАРАБОТАТЬ БЕСПЛАТНЫЕ НОЧИ» (earn free nights)	«БЕСПЛАТНЫЕ НОЧИ ЗА БАЛЛЫ» (free nights for points)	Word-for-word translation of “Earn free nights”. This wording is unnatural in Russian.	☐	
3	Loyalty program block, text under the heading	«баллы для бесплатных суток» (points for free 24-hour days)	«баллы для бесплатных ночей» (points for free nights)	Two terms in one block: «ночи» (nights) and «сутки» (24-hour days). Use «ночи» throughout the block.	☐	
● Minor						
6	“Special offers” block, card 1	«Получите Скидку 50% На Второй Номер»	«Получите скидку 50% на второй номер»	Every word capitalized, following the English pattern. Not used in Russian.	☐	
7	“Special offers” block, all cards (4 repeats)	«РАЗЛИЧНЫЕ ЛОКАЦИИ» (various locations)	«РАЗНЫЕ НАПРАВЛЕНИЯ» (various destinations)	Calque of “Various locations”. Sounds bureaucratic; the meaning is unclear to visitors.	☐	

Errors 8-15 are hidden in the sample

- Errors No. 4 and No. 5 require technical work and have been passed to the developer in a separate task list.
- After making corrections, check the page on a phone: long Russian words may not fit into a button or card.
